

**GEDA**

**SOCIAL VALUE REVIEW**  
**2025**

# INTRODUCTION

We are proud to share our Social Value Review, capturing the positive impact delivered across our projects, partnerships and communities across 2025.

*GEDA's four core values:*

 **Trust**

 **Respect**

 **Positivity**

 **Unity**

These form the foundation of our social value approach, shaping both our commitments and how we deliver them.

We are committed to delivering more than construction; we strive to create lasting social impact, support inclusive growth and strengthen the communities we serve, project by project.

The following snapshots of statistics highlight the scale and reach of this impact in more detail.

# SOCIAL VALUE

£300 THOUSAND

# Conclusion

**The 2025 stats represent a period of meaningful progress for social value at GEDA.**

**From volunteering hours and education engagement to strengthened partnerships and improved measurement, we are proud of what has been achieved in a short space of time.**

**Looking ahead, we are committed to building on this strong foundation. We will continue to embed social value across our projects, strengthen our partnerships, and refine how we measure and communicate impact.**

**By doing so, we aim not only to contribute positively to local communities, but to set a higher standard for what responsible construction can achieve.**
